Dear Colleague,

On behalf of the European Society of Pathology and the Spanish Society of Pathology we would like to welcome you to Bilbao.

This year, pathologists and scientists from all over the world celebrate the 30th anniversary of ECP – while getting updated on all aspects of diagnostic and molecular pathology.

The theme for the ECP 2018, "Pathology: Path to Precision medicine" highlights Pathology as the cornerstone of precision medicine and underlines the central role of the pathologist in the multidisciplinary teams that guide patient management in the 21st century. Pathologists collaborating with molecular biologists, geneticists, bioinformaticians, and information technologists provide accurate diagnoses, prognostic and predictive information essential for treatment decisions tailored to the individual patient.

ECP 2018 has organ-based sessions prepared by the ESP working groups, joint sessions with other pathology and clinical scientific societies, trainee-led sessions, and special sessions focusing on advances in molecular and digital pathology, quality assessment, education, histotechnology and public awareness.

Keynote lectures, as every year, are the highlight of the programme with eminent colleagues enlightening us on different aspects of pathology and beyond. The ECP 2018 oral free paper and best poster sessions are a great platform to present and discuss exciting new translational research in all areas of pathology, while the challenging diagnosis of rare entities is showcased in poster sessions.

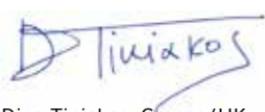

We are happy to have you here and wish you an unforgettable time in vibrant Bilbao!

► Brief Description of the ESP

The European Society of Pathology (ESP) was founded by a small group of eminent pathologists in 1963. The Society was officially registered in Brussels, Belgium as an international non-profit organization on November 7th, 1964. The ESP is a leading force in European pathology and, as such, is pivotal to the future of the specialty in Europe and beyond. As a scientific society, the ESP has, as its primary aim, the promotion of high quality diagnostic practice, applied and translational research and under- and postgraduate education in the field of human pathology. This is achieved through its congresses, its journal *Virchows Archiv* and various other activities. The ESP interacts with national pathology societies in Europe and has developed links with other EU bodies in close collaboration with UEMS (Union Européenne des Médecins Spécialistes) and EAPCP (European Association of Pathology Chairs and Programme Directors). The European School of Pathology under the auspices of the ESP and with the support of 20 Working Groups and 5 Affiliated Societies representing different fields of pathology is involved in the organisation of courses to meet the needs of young pathologists. The ESP has recently established ESPQA Foundation which stimulates external quality assessment programmes for several biomarkers where diagnostic laboratories worldwide participate in the organised schemes such as Lung and Colon.

► Manuel Serrano (Spain)

Manuel Serrano obtained his PhD in 1991, at the University of Madrid (UAM). From 1991 to 1996, Serrano worked as a postdoctoral researcher in the team of David Beach in Cold Spring Harbor Laboratory, NY. During this period, Serrano made his most important discovery with the identification and characterization of the gene p16, one of the most important genes for anti-cancer protection and a key inducer of cellular senescence. Serrano returned to Spain in 1997 to lead a research group, first at the National Center of Biotechnology (CNB), and then, from 2003 to 2017, at the Spanish National Cancer Research Center (CNIO), both in Madrid. In 2017, Serrano moved to the Institute for Research in Biomedicine (IRB), in Barcelona.

Manuel Serrano is internationally recognized in the field of tumour suppression and aging. In addition to the discovery of p16, one of his main discoveries has been the identification of cellular senescence as a main anti-oncogenic response. The Serrano team was also pioneer in the generation of genetically-modified long-lived mice resistant to damage and cancer, through the regulated enhancement of the key tumour suppressors p53 and p16. Recently, his laboratory has also shown that cellular senescence participates in several tissue remodeling processes during embryo development.

During the last years, the research interests of Manuel Serrano have extended to metabolism and cellular reprogramming in relation to aging. The Serrano laboratory was first in demonstrating that cellular reprogramming into pluripotency is possible within an organism, and this was considered Advance of the Year 2013 by Nature Medicine. More recently, Serrano has reported in that *in vivo* reprogramming is enhanced by the pre-existence of tissue injury which provides key factors, such as interleukin IL-6, that promote cell plasticity.

Now, the focus of his laboratory is to apply their knowledge on senescence and reprogramming to degenerative diseases such as lung, kidney and heart fibrosis.

► Anna Mae Diehl (USA)

Dr. Diehl is a Phi Beta Kappa, cum laude graduate of Georgetown University (1974), was elected to Alpha Omega Alpha as a junior medical student, and awarded the Janet M. Glasgow Award for women who graduate first in their medical school class, as well as the Kober medal for overall academic excellence, when she graduated summa cum laude from Georgetown University School of Medicine (1978). Dr. Diehl completed her internship and residency in internal medicine (1978–81), as well as her fellowship in gastroenterology at Johns Hopkins University (1981-84). Dr. Diehl remains active in basic and clinical liver research, and, has a busy clinical Hepatology practice caring for patients with nonalcoholic fatty liver disease (NAFLD). Her work has led to her recognition as a thought leader in the NAFLD field. A number of universities and professional societies have honored Dr. Diehl for her contributions to the field of Hepatology and regularly invite her to present at research symposia. Dr. Diehl is viewed internationally as an authority in the liver regeneration field and is regularly invited to present state-of-the-art lectures at major scientific meetings, to author position papers for leading biomedical research journals, and to serve on scientific review panels and advisory boards that conduct research and develop clinical practice guidelines for liver diseases. Dr. Diehl has been voted one of the Top Doctors in the USA and selected for Who's Who in Medicine. In the spring of 2011, the National Institutes of Alcohol Abuse and Alcoholism conferred upon her the Jack Mendelson Award, its highest honor for research that has advanced knowledge about alcohol-related diseases, and, the Board of Trustees of the Johns Hopkins University inducted her into their elite Society of Scholars. In the fall of 2012, she was presented with the AASLD Distinguished Scientific Achievement Award in honor of her sustained scientific contributions to the field of liver disease and the scientific foundations of Hepatology. In addition, Dr. Diehl is a charter member of the NASH CRN Steering Committee, an invited member of the writing group for the recently published AASLD/AGA/ACG NASH Clinical Guidelines, and the senior author on the first chapter on NAFLD that will appear in the latest edition of Harrison's Textbook of Medicine. She won the Duke Distinguished Faculty Award in 2017 and will receive the Elizabeth Hurlock Beckman Award in fall 2018. Dr. Diehl's laboratory has received uninterrupted NIH support to investigate basic mechanisms of liver regeneration for over 20 years.

Dr. Diehl has devoted her research career to unraveling the mechanisms that control liver regeneration/repair because her job as practicing clinical hepatologist is to improve the outcome of liver injury. As a hepatologist, she cares for many patients with nonalcoholic fatty liver disease (NAFLD). Dr. Diehl's goal is to lessen the patient's suffering and to prevent premature death from liver disease. Because work in her lab suggests that bad outcomes of NAFLD (i.e., cirrhosis and cancer) result when dead hepatocytes are not regenerated efficiently, Dr. Diehl has devoted her career to: i) identifying mechanisms that promote effective liver regeneration, ii) determining which of these processes become deregulated when liver repair is defective, and iii) testing whether or not "fixing"the deregulated process will restore regeneration and improve recovery, thereby reducing liver-related morbidity and mortality. Dr. Diehl's research program on obesity-related liver disease has been supported by the NIH for more than a decade. Our findings have advanced understanding about basic mechanisms that drive NAFLD progression and provided the conceptual basis for subsequent clinical trials. The work has also led to Dr. Diehl being recognized as a thought leader in the NAFLD field. For example, Dr. Diehl is regularly invited to present her basic research at research symposia, such as FASEB Conferences and Keystone Symposia.

► **Patrick Tan (Singapore)**

Prof. Patrick Tan is a Professor at the Duke-NUS Medical School and Deputy Executive Director of the Biomedical Research Council (Agency for Science, Technology, and Research). He directs PRISM, the SingHealth DukeNUS Institute of Precision Medicine, and was Program Director of POLARIS, which established the first CAP-certified facilities for next-generation sequencing and the first clinically implemented NGS panel in South East Asia. He received his B.A. (summa cum laude) from Harvard University and MD PhD degree from Stanford University, where he received the Charles Yanofsky prize for Most Outstanding Graduate Thesis in Physics, Biology or Chemistry. Other awards include the President's Scholarship, Loke Cheng Kim scholarship, Young Scientist Award (A-STAR), Singapore Youth Award (twice), SingHealth Investigator Excellence Award, Chen New Investigator Award (Human Genome Organization), President's Science Award, and the Japanese Cancer Association International Award. In 2018, he received the American Association for Cancer Research (AACR) Team Science Award as Team Leader, representing the first time a team from Asia has received the award. He is an elected member of the American Society for Clinical Investigation (ASCI), the Bioethics Advisory Committee (BAC), a Board Member of the International Gastric Cancer Association, and co-chair of the Singapore National Precision Medicine Program Steering Committee.

► Han van Krieken (The Netherlands)

Han van Krieken is a pathologist with special expertise in the fields of haematopathology and the pathology of the gastrointestinal tract. He was Professor for tumour pathology since 1999, Chair of Pathology 2004–2015 and Head of the Department of Pathology at the Radboud University Nijmegen Medical Centre in Nijmegen, The Netherlands. From 2009 on he was the Chairman of the Radboud University Centre for Oncology, which evolved in 2015 to the Radboudumc Centre for Oncology and had 50% position as chairman until he became Rector Magnificus of the Radboud University in May 2016.

He was the Treasurer/Secretary of the European Association for Haematopathology 2000–2008 and Treasurer 2003–2011 and President of the European Society of Pathology (ESP) 2013–2015. Furthermore, he was the chairman of the Working Group of Digestive Diseases of ESP 2003–2007 and directed the external quality assurance program (2009–2015).

He is (co)author of more than 500 papers in peer reviewed journals, has written chapters in books on pathology and oncology, is chief editor of a Dutch textbook on oncology and the Encyclopedia of Pathology. He serves on the editorial board of the American Journal of Surgical Pathology, was managing editor of Virchows Archiv (2009–2015) and the Chief editor of the Journal of Hematopathology (2007–2017).

Since 2011 he is member of the German Academy of Sciences Leopoldina and since 2014 member of the Academia Europaea and Honorary Fellow of the Royal College of Pathology.

► Bursaries

The ESP has awarded bursaries to support the attendance of residents and trainees in pathology at the 30th European Congress of Pathology in Bilbao. Bursaries include a free registration to the congress as well as a monetary grant of EUR 150.

► CME Accreditation

The 30th European Congress of Pathology, Bilbao, Spain has been accredited by the European Accreditation Council for Continuing Medical Education (EACCME®) with 26 European CME credits (ECMEC®'s).

Each medical specialist should claim only those hours of credit that he/she actually spent in the educational activity.

Through an agreement between the Union Européenne des Médecins Spécialistes and the American Medical Association, physicians may convert EACCME® credits to an equivalent number of AMA PRA Category 1 Credits™.

Information on the process to convert EACCME® credit to AMA credit can be found at www.ama-assn.org/education/earn-credit-participation-international-activities.

Live educational activities, occurring outside of Canada, recognised by the UEMS-EACCME® for ECMEC®'s are deemed to be Accredited Group Learning Activities (Section 1) as defined by the Maintenance of Certification Program of the Royal College of Physicians and Surgeons of Canada.

There is no need to register additionally for the Symposium.

▶ Sunday, 9 September 2018

CP-01	1-Day CP Symposium
08:30–09:30	Room E
<i>Chair: Jeroen van der Laak, The Netherlands</i>	

001 08:30–09:00
Digital pathology enables integration of spatial immune cell patterns into systems medicine

Friedrich Feuerhake, Germany

002 09:00–09:30
Evaluating computational pathology at the US FDA and related research
Brandon Gallas, USA

CP-02	1-Day CP Symposium
10:30–12:00	Room E
<i>Chair: Niels Grabe, Germany</i>	

001 10:30–11:00
Deep learning for large-scale histopathology image analysis
Hao Chen, Hong Kong

002 11:00–11:30
Integrative computational pathology: a strategic opportunity for the future of pathology
Daniel Racoceanu, Peru

003 11:30–12:00
How can we ensure that deep learning-based analysis of H&E images is truly helpful to the clinical workflow?
Lena Kajland Wilen, Sweden

CP-03	1-Day CP Symposium
14:45–16:45	Room E
DPA Session	
<i>Chair: Nasir Rajpoot, United Kingdom</i>	

001 14:45–15:25
The challenge of making encoded data clinically actionable
Ulysses Balis, USA

002 15:25–16:05
How artificial intelligence may change the way pathologists work
Jeroen van der Laak, The Netherlands

003 16:05–16:45
Can deep learning models be trained with annotations collected via crowdsourcing?
Shadi Albarqouni, Germany

CP-04	1-Day CP Symposium
17:15–18:45	Room E
<i>Chair: Darren Treanor, United Kingdom</i>	

001 17:15–18:05
Keynote: Digital pathology & artificial intelligence, the third revolution in pathology
Manuel Salto-Tellez, United Kingdom

002 18:05–18:45
Panel discussion: Role of the pathologist in a digital pathology lab using AI

Adenomyoepithelioma and malignancy in association with adenomyoepithelioma, 4 cases from a single center

Taha Cumhan Savli, Turkey

E. C. Kelten Talu, D. Can Trabulus, U. Gursu

040

Tumour-infiltrating lymphocytes (TILs) as a predictor of response to neoadjuvant chemotherapy in breast cancer

Laura Hernandez Leon, Spain

G. Tapia Melendo, E. Castellá Fernández, T. V. Sanhueza, R. Marginet Flinch, M. Martín Céspedes, V. Quiroga García, M. Margelí Vila

041

Lymphoepithelioma-like breast carcinoma. Report of a case

Eleni Pigadioti, Greece

N. Koufopoulos, D. Dimas, E. Kanari, I. Missitzis, L. Khaldi

042

The diagnostic value of liquid-based cytology in thyroid fine needle aspiration: an institutional experience

Canan Sadullahoglu, Turkey

H. Tosun Yildirim, S. Yildirim, I. Atalay Karacay, D. Nergiz, A. Sezgin Alikanoglu, D. Süren, C. Sezer

043

Acinic cell carcinoma of the breast associated with high grade ductal carcinoma: a case report

Justino Jiménez Almonacid, Spain

J. L. García Pérez, M. d. la Paloma Arribas Granado, M. Blanco Bellas, L. Hernández Sánchez

045

Primary mucinous cystadenocarcinoma of the breast: report of a rare case

Elli Botsfari, Greece

N. Vladika, S. Barbanis, D. Gerasimidou, B. Christoforidou, E. Triantafyllidou, R. Iosiphidou, P. Xirou

046

Comparison of immunohistochemical markers before and after neoadjuvant chemotherapy in breast cancer and their use as predictor of response

Irena Jovanic, Serbia

Z. Milovanovic, O. Zivkovic, N. Medic Milijic

047

Prolactin and circulating vitamin D levels as risk factors for benign breast tumour

Elena Valeeva, Russia

I. Garifulllova, O. Kravtsova, N. Akberova, L. Maltseva

048

Malignant phylodes tumour with rhabdoid and chondroid differentiation in a patient with Hashimoto thyroiditis

Roxana Andreea Cioca, Romania

P. J. Martinez Murillo, F. G. Gutierrez, P. A. Rodríguez Miñon, I. Marin

PS-02**Poster Session****Cytopathology**

*Chairs: Danijela Vrdoljak-Mozetic, Croatia
Philippe Vielh, Luxembourg*

001

Can Survivin, IMP3 and GLUT-1 be helpful in the differential diagnosis of peritoneal effusion cytology?

Aysu Sadioglu, Turkey

F. P. Uyar Gocun, A. Armutlu, N. Ak, C. Taskiran, O. Erdem

003

How does knowledge of hpv status affect pathologists' final cytologic diagnosis?

Ipek Erbarut Seven, Turkey

M. H. Toper, F. Eren

004

Preoperative diagnosis of poorly differentiated thyroid carcinoma by fine needle aspiration cytology

Angela Borda, Romania

A. Nechifor-Boila, A. Zahan, E. Szasz, E. Dee

005

Comparative characteristics of neutrophil extracellular DNA formation during incubation with breast carcinoma autologous cells of different molecular-genetic subtype

Anna Semenova, Russia

I. Dolgushin, E. Kazachkov, A. Vagenin, Y. Shishkova

006

Tall cell variant of papillary thyroid carcinoma: report of a case with tall cell variant clues in thyroid fine needle aspiration cytology

Melanie Benozene, France

B. Bouchindhomme, R. Caiazzo, W. Karrouz-Ribeiro, E. Leteurtre

007

Retrospective analyses of women with HSIL or more in a countryside city in relation to age, number and interval of cytological exams

Jose Candido Caldeira Xavier Jr, Brazil

D. J. Camilo Jr, A. P. Hehnes Guedes A Gardini, S. C. Garcia Pires D'ávila,

N. J. Mattar

008

Can liquid-based cytology help for diagnosing pleural and ascitic effusions?

Maria Dardyk, Russia

V. Kometova, T. Kondratieva, G. Khabas, S. Pronin, L. Ashrafiyan

009

Role of cytology in the diagnosis of intraocular lesions: a retrospective study of 33 patients

Hector Rodrigo Lara, Spain

A. Ballester, I. Torralba Cloquell, A. M. Quintero Duarte, M. A. Martínez Ortega, A. Forteza Valadés, S. Bonilla Hurtado, J. L. Olea Vallejo, J. F. Iglesias Alzueta, J. E. Serra Trespalte

010

Cytologic diagnosis of noninvasive follicular thyroid neoplasm with papillary-like nuclear features and its impact on the risk of malignancy in the Bethesda system for reporting thyroid cytopathology: an institutional experience

Ji Won Woo, Republic of Korea

M. Kim, J. E. Kim, H. J. Kim, Y. R. Chung, Y. Kwak, H. Y. Na, G. Y. Choe, S. Y. Park

011

Diagnostic concordance difference between endobronchial ultrasound-guided transbronchial needle aspiration cytology and needle biopsy according to lymph node station

In Ae Park, Republic of Korea

J. Koh, Y. K. Jeon,, D. H. Chung, B. Shim

012

Endoscopic ultrasound guided fine needle aspiration in pancreatic lesions: a four-year retrospective study with cytohistological correlation and use of DPC4

Geanella Geraldine Yange Zambrano, Spain

J. Martín López, J. B. García Reyero, J. Martínez-Echevarría Gil-Delgado, M. Martíno González, M. A. Revuelta Montoya, J. C. Yange Zambrano, H. G. Sarmiento Moncayo, G. A. Yange Zambrano, M. L. Cagigal Cobo

013

Intraocular lymphomas. Clinical and cytological perspective

Carla Fuster Anglada, Spain

V. Llorenç, M. Solé, A. Serrano, A. Adán, I. Aldecoa

014

Diagnostic accuracy of endoscopic ultrasound-guided sampling techniques of pancreatic lesions in surgically confirmed cases

In Ae Park, Republic of Korea

J. Koh, H. W. Baek, K. B. Lee, B. Shim

015

The Papanicolaou Society of Cytopathology (PSP) pancreato-biliary cytology (pbc) nomenclature: early experience in our centre with endoscopic ultrasound-guided fine-needle aspiration biopsy (eus-fna)

Mario Giner Pichel, Spain

I. Ramos-Olivier, L. Silva, A. Aula, S. Ubalde, J. Roman, J. Temprana-Salvador, M. Alberola, F. García-Fouz, M. Abu-Suboh, C. Dinarès, S. Ramón y Cajal, C. Iglesias

016

Diagnosis of soft tissue lesions: role of fine-needle aspiration cytology

Cristina Díaz Del Arco, Spain

I. Ruiz Adelantado, L. Ortega Medina, I. Subhi-Issa Ahmad, M. J. Fernández Aceñero

017

The clinical performance of the ultrasound-guided thyroid fine-needle aspiration cytology and molecular testing at a tertiary care hospital

Hatice Seneldir, Turkey

G. Kir, N. Ozbay, B. Girgin, F. Ozen, G. Bas, O. Alimoglu

018

HPV negative cervical adenocarcinoma – rare case of gastric type diagnosed by cytology

Snjezana Stemberger-Papic, Croatia

D. Vrdoljak-Mozetic, D. Versa Ostojic, M. Dinter, R. Rubesa-Mihaljevic, S. Eminovic

019

Endoscopic ultrasound (EUS)-guided fine needle aspiration (FNA) cytology of mesenquimal tumours of the gastrointestinal tract: a 10 year retrospective study of 66 cases

Maria Martino, Spain

M. Revuelta, A. Estebanez

020

Diagnostic performance of fine needle aspiration for thyroid nodular pathology.

Analysis of 921 cases

Sara Marcos González, Spain

R. Sanchez Pacheco, I. Hernández Alconchel, J. Garcia Reyero, P. Lastra García-Barón, A. Fernández Flórez, R. Ugalde Herrá, R. Mazorra Horts, P. Bueno Ortiz, M. Martino González, M. A. Revuelta Montoya, J. Martín López, M. L. Cagigal Cobo

021

Fine-needle aspiration cytology of the thyroid. A 10-year retrospective study of 3,531 samples from a single institution. Bethesda System and cytology-histology correlation

Maria Martino, Spain

C. Azpiazu, S. Montes, I. Lastra

Cristina Amaglio, Italy

J. P. Brouland, E. Bianconi, M. L. Tanda, D. Locatelli, F. Sessa, S. La Rosa, S. Uccella

004

Primary pigmented nodular adrenocortical disease – the role of the pathologist in the diagnosis of hereditary syndromes

Catarina Pedrosa da Costa, Portugal

C. Costa, D. Melo, E. Rios

005

PDCD1 (PD-1) promoter methylation as a new prognostic marker in localised (stage I-II) Merkel cell carcinoma

Francesca Ambrosi, Italy

L. Morandi, F. Maletta, C. Ricci, D. Gibertoni, A. Righi, M. G. Papotti, M. P. Foschini, S. Asioli

007

Clinico-pathological features of adrenal tumours in young adults, a retrospective study

Ioana Dumitru, Romania

C. Ajzenberg-Gauthieh, L. Salomon, M. Nourieh

008

Ultrastructure cell-cell interconnections in neuroendocrine neoplasms of the pancreas

Elena Gordienko, Russia

O. Paklina, I. Chekmareva, A. Kaldarov

009

Pathological evaluation of prognostic parameters in tall cell thyroid carcinoma: a study

Chiara Brunelli, Italy

T. Musarra, C. De Marco, P. Straccia, M. Martini, E. D. Rossi, G. Petrone, G. Fadda

010

DICER1 alterations are more frequent in oncocytic, follicular and rare aggressive variants than in classical papillary thyroid carcinoma

Sule Canberk, Portugal

L. Pereira, R. Batista, P. Soares, V. Máximo, M. Sobrinho Simões

011

Impact of thiadiazines and lipoic acid on protection of pancreatic islets, liver and kidney in diabetic rats

Gette Irina, Russia

E. Victor, D. Irina, B. Tatyana, S. Larisa

012

Prevalence and clinicopathological features of papillary thyroid carcinoma – analysis of the cases of a single institute for a period of 20 years

Radina Ivanova, Bulgaria

P. Karanova, R. Kovacheva, A. Shinkov, T. Sechanov, N. Kanev, K. Vidinov

013

NIFT-P and cytology – can overtreatment of thyroid tumours be reduced?

Tiago Maia, Portugal

Intimal sarcoma of the abdominal aorta: an unexpected autopsy finding	
<i>João Fraga, Portugal</i>	
H. Moreira, C. Cerdeira, R. Almeida, A. C. Lai, M. B. Pimentão, V. Almeida, C. Faria, H. Garcia	
003	
Leptomeningeal carcinomatosis and infiltration of the orbit mimicking a neurological paraneoplastic syndrome in a 51-year-old female with gastric adenocarcinoma	
<i>Maciej Kaczorowski, Poland</i>	
M. Minecki, A. Halon	
004	
Influenza season 2017–2018 at a single institution: clinical, histologic and microbiological findings	
<i>Juan P Olano, USA</i>	
T. S. Harmon, R. P. Duggan	
005	
Reye-like syndrome in a patient with suspected medium-chain acyl-CoA dehydrogenase deficiency and two unaffected family members with an acyl-CoA dehydrogenase-mutation	
<i>Max Kamm, Germany</i>	
J. Godau, I. Berger, R. Rottscholl	
006	
Extranodal NK/T cell lymphoma/leukemia associated with hemophagocytic syndrome and spontaneous splenic rupture: a case report	
<i>Ana Marques, Portugal</i>	
R. Silva, E. Fonseca	

007

Autolytic changes due to formalin-fixation delay: a histomorphologic study

Ana Isabel Varelas, Portugal

R. Moreira Silva, P. Heitor, F. Silva, C. Leal, M. Jácome, C. Bartosch

008

Nonbacterial thrombotic endocarditis: a silent cause of death revealed in autopsy

João Fraga, Portugal

H. Moreira, R. Almeida, C. Cerdeira, A. C. Lai, M. B. Pimentão, C. Faria, V. Almeida, H. Garcia

009

Incidental chondroid chordoma – necroptic diagnosis

Cornelia Amalinei, Romania

A. Capilnean, G. Dumitrescu, A. Grigoras, L. Riscanu

010

Advanced urothelial carcinoma of renal pelvis with extremely high level of serum hCG

Ksenya Shelekhova, Russia

K. Krykow

E-PS-02**E-Posters****Breast Pathology****002**

Microfluidic-based immunohistochemistry for molecular subtyping of breast cancer

Maria-Giuseppina Procopio, Switzerland

F. Aimi, M. T. Alvarez Flores, N. Piazzon, S. Brajkovic, D. G. Dupouy, M. Gijs, L. de Leval

003

Using control charts to assess the consistency of breast cancer grading in 1,453 resections

Michael Bonert, Canada

F. Tayyari, A. Bane, P. Major, G. Gohla, P. Williams

004

Routine biomarkers in preoperative biopsy and resected breast tumour – need for reassessment?

Caroline Rönnlund, Sweden

S. Robertson, J. de Boniface, J. Hartman

005

Prognostic value of clinicopathological features in a large cohort of triple negative breast cancer

Maschenka Balkenhol, The Netherlands
W. Vreuls, C. Wauters, S. Mol, J. van der Laak, P. Bult

006

Breast leiomyosarcoma after breast reconstruction in a BRCA mutated (high risk) woman

Tiziana Perin, Italy
M. Urbani, M. La Grassa, M. Mileto, V. Canzonieri

007

Fluorimetry as a new approach for detection of proliferative activity and hormonal status of breast cancer

Yulia Korneva, Russia
V. Maryakhina, A. Dorosevich, O. Schisterova

008

Primary diffuse large B-cell lymphoma of the breast: report of 8 cases

Leire Andres, Spain
V. Velasco, M. Saiz, L. Mosteiro, V. Caamaño, S. Malaxetxebarria, M. Gonzalez, A. Marcos, I. Diaz de Lezcano, A. Gaafar

009

Hyperspectral optical imaging for intraoperative margin assessment during breast cancer surgery

Koen Van de Vijver, Belgium
E. Kho, L. de Boer, H. Sterenborg, T. Ruers

010

Primary follicular lymphoma in a male breast: a case report with immunochemistry findings

Dorra Chiba, Tunisia
O. Adouni, I. Bettaib, A. Goucha, S. Kamoun, H. Bouzaiene, J. Ben Hassouna, K. Rahal, A. Gamoudi

011

The clinical outcomes regarding to tumour-infiltrating lymphocytes in the breast cancer patients treated with neoadjuvant chemotherapy

Serdar Altinay, Turkey
M. E. Günes, E. Sen, C. Ozdemir, M. Karli, A. Gemici, A. Ziriloglu

013

A case of primary synchronous bilateral breast cancer with heterogenous hormone receptors and HER2 status

Svitlana Bachurska, Bulgaria
D. Tashkova, P. Tzvetkov, A. Hubenova, R. Ilieva

014

Global DNA methylation in patients with benign and malignant breast lesions

Ketevani Kankava, Georgia
E. Kvaratskhelia, M. Gudadze, T. Kvaratskhelia, G. Burkadze, E. Abzianidze

015

A case of metaplastic matrix-producing breast carcinomas

Andrei Dobriakov, Russia
K. Opalenov, E. Poputchikova, N. Shvets, E. Tarasova, M. Antonov

017

Correlation between tumour angiogenesis and grade of breast invasive carcinoma of no special type

Konstantine Midiber, Russia
V. Luchinin, M. Mnikhovich, T. Bezuglova, L. Kaktursky, A. Shilov, I. Vasin, S. Snegur, K. Bunkov, V. Pechnikova

018

Invasive mucinous adenocarcinoma arising in an intracystic papillary carcinoma

Abed Arnaout, United Kingdom
S. De Noon, N. Betambeau

019

Liquid-based cytology and breast lesions: is there an alternative for traditional smear cytology?

Maria Dardyk, Russia
V. Kometova, Y. Dergunova, T. Kondratieva, L. Ashrafiyan, V. Rodionov

020

Breast secretory carcinoma and adenoid cystic carcinoma: triple-negatives breast tumours with good prognosis. Presentation of 5 cases

Helen Patricia Almanzar Comas, Spain
S. Bakali, B. Eizaguirre, C. M. Del Agua, E. Gimeno, M. J. Viso, J. I. Franco, M. A. Trigo, A. Sobrino, R. I. Bermúdez

021

Analysis of the relevance between molecular subtypes and efficacy of neoadjuvant chemotherapy in breast cancer as well as its prognostic factors

Yueping Liu, Hong Kong

F. Li, L. Ma, C. Liu, J. Shang, M. Yue

022

Comparative evaluation of breast mammography, sonography, frozen section & permanent results from 2009-2013 in two hospitals

Pardis Rezaei Shirinabadi, Iran

M. H. Nossoohi Dehnavi, S. Taghipour Zahir, E. Afzalinejad

024

Apocrine encapsulated papillary carcinoma of the breast – a rare entity with more malignant potential than previously thought? First report on its association with invasive carcinoma

Bence Kovari, Hungary

K. Ormándi, Z. Simonka, A. Vörös, G. Cserni

025

Diagnosis of invasive papillary carcinoma of the breast in core-needle biopsy: an analysis of 42 cases (2012-2017)

José Ignacio Franco, Spain

► Congress Information System

For the 30th ECP, the web based Congress Information System CO CONGRESS ONLINE® has been installed: www.esp-congress.org.

The delegates can set up and print out their personal congress programme schedule.

CO CONGRESS ONLINE® provides:

- ▶ Updated scientific programme
- ▶ Programme by day
- ▶ Programme by format

► Congress Language

The official language of the 30th European Congress of Pathology is English.

► Certificate of Attendance

Participants can print out their certificates of attendance at the terminals near the registration counter.

From 17 September 2018 on, you can also print your CME certificate online at www.esp-congress.org by logging in with your participant number or with your congress login credentials.

► Abstract Book

All abstracts are published in Virchows Archiv, Volume 473, Supplement 1. Participants will receive a copy of the final programme and the abstract book on a USB drive with the congress material.

► Programme Changes

The organisers cannot assume liability for any changes in the congress programme due to external or unforeseen circumstances.

► ECP 2018 App

Get the ECP 2018 App for your smartphone and experience the congress at your fingertips. Stop carrying around piles of paper. Just take the congress with you, wherever and whenever you like.

- ▶ Send questions to the chairpersons during a session.
- ▶ Quickly find your way through the most up-to-date congress schedule.
- ▶ Mark your favourite sessions and personalise your experience.
- ▶ Access vital information around the congress.

The App is completely free and provides iPhone/iPad and Android users at ECP 2018 in Bilbao with on-the-go access to the most exciting interactive features of the congress.

The Questions & Answers tool is available in the following rooms: Auditorium, Room A1, Room A3.

The ECP 2018 App is powered by GLOBIT GmbH in cooperation with esanum GmbH.

► Speakers' Preview Room

The Speakers' Preview Room is located in Room D2–D3 on Level -1. Speakers are asked to hand in their CD-ROM or USB stick containing the PowerPoint presentation preferably one day before their presentation, but at the latest three hours prior to the presentation. On-site technical staff will offer support.

Due to time and technical reasons we kindly ask the speakers not to use their own notebook. In the Speakers' Preview Room there are several PC working stations, where speakers can work on their presentation charts in a quiet area. Technical staff will be happy to assist.

Lunch is served from 13:00 to 14:30 from Sunday, 9 September through Tuesday, 11 September 2018 and 13:00 to 14:00 on Wednesday, 12 September 2018. The catering stations are located in Exhibition Hall I/II.

► Cloakroom

A cloakroom can be used free of charge from Saturday, 8 September, early evening, to Wednesday, 12 September 2018. Participants can also store their luggage here. The cloakroom is located in Exhibition Hall I/II, near the entrance to Room Barria.

► Car Park

The multi-storey car park at Euskalduna Conference Centre is easily accessible thanks to its location next to the roundabout Euskalduna Zubia and has 475 parking spaces. The fee is EUR 18 per day. For more information, please check the Euskalduna Conference Centre website: <https://www.euskalduna.eus/>

► Safety

Please make sure to take off your name badge and congress bag when you go sightseeing in downtown Bilbao. Wearing the name and bag identifies you as a tourist which might attract pickpockets.

► First Aid

First Aid will be provided during ECP tenancy hours at the Euskalduna Conference Centre. In case of emergency, please contact the staff at the congress counter.

► Kids @ ECP

Unfortunately, children can neither be allowed into the scientific sessions nor into the Industry Exhibition, as the ECP is a congress for health professionals.

► Insurance/Liability

The ESP does not accept any liability for damages and/or losses of any kind which may be incurred by the congress participants or by any person accompanying them, during either the official activities or excursions. Delegates participate in all tours/events at their own risk. Participants are advised to take out insurance against loss, accidents or damage that could be incurred during the congress.

► How to get from the City Centre to the Convention Centre

By tram

The Bilbao tram line stops right in front of the Euskalduna Conference Centre (stop: Euskalduna).

By metro

The metro stop closest to the Euskalduna Conference Centre is San Mamés (Sabino Arana exit) - served by metro lines 1 and 2. The stop is an 8-minute walk from the Conference Centre.

By bus

The bus stop closest to the Euskalduna Conference Centre is Jesusen Bihotza 1 - served by lines L26, L56 and L62. The stop is a 4-5-minute walk from the Conference Centre.

Taxis

A taxi stand is located opposite Entrance 3 of Euskalduna Conference Centre. Other than that, taxis can be called or hailed on the street or found at one of more than 50 official taxi stands around the city. Taxi stands can easily be identified by the blue boards. Please be aware that not all of the taxis accept credit cards in Bilbao.

OFFICIAL JOURNALS OF THE UNITED STATES AND CANADIAN ACADEMY OF PATHOLOGY

LABORATORY INVESTIGATION

Editor-in-Chief:
Gene P. Siegal, MD, PhD

Laboratory Investigation offers prompt publication of high-quality original research in all biomedical disciplines relating to the understanding of human disease and the application of new methods to the diagnosis of disease.

MODERN PATHOLOGY

Editor-in-Chief:
John N. Eble, MD, MBA

Modern Pathology provides a forum for understanding pathologic processes and evaluation of new and existing diagnostic applications. The journal fosters the acquisition and maintenance of up-to-date information to ensure high standards of practice.

► Opening Ceremony and Welcome Reception

Saturday, 8 September 2018

► 19:00 – 22:00, Euskalduna Conference Centre

Join the official Opening Ceremony of the 30th European Congress of Pathology in the Auditorium of the Euskalduna Conference Centre. During the ceremony, there will be words of welcome by the President of the ESP, the President of the Spanish Society of Pathology, the Chair of the LOC and a performance by the Bilbao Choral Society.

The Opening Ceremony will be followed by a Networking Reception in the Exhibition Hall.

► Congress Concert

Tuesday, 11 September 2018

► 20:00 – 22:00, Campos Eliseos Theatre
Calle Bertendona, 3

The Campos Eliseos Theatre with its beautiful art nouveau façade, designed by the Basque-French decorator Jean Batiste Darrouguy, is a modernist eye-catcher. The theatre is a listed monument and has always been known as "The Chocolate Box". It was reopened in 2010 after a restoration process undertaken by the City Hall of Bilbao and the General Association of Authors. The renowned Bilbao Symphonic Orchestra will perform an exclusive concert for the ECP delegates with a classical-romantic repertoire including a taste of Basque music.

Cost contribution per person

► Member: EUR 20
► Non-Member: EUR 40

► Congress Party

Wednesday, 12 September 2018

► 20:00 – 24:00, Iberdrola Tower, 24th Floor
Euskadi Plaza, 5

This year's Grand Finale of the ECP will take you to the top of the beautiful city of Bilbao. Located in the heart of Bilbao, near the Guggenheim Museum, the Iberdrola Tower is a landmark and the tallest building of the Basque country. The 24th floor provides you with a breathtaking 360° view of the city. Enjoy the final evening, indulge in great Basque food and dance the night away!

Cost contribution per person

► Member: EUR 10
